<p>IN MATTER OF:</p> <p>Combined Application of SCE&G ... for a Base Load Review [Act] Order and ... for Authority to Adjust and Increase Its Electric Rates and Charges.</p>	<p>AMENDMENT to RESPONSE TO MATTER</p> <p>ID 252149 IN DOCKET 2014-187-E</p>
--	--

There is a simple rule: “A person living within a 50-mile radius of a nuclear power plant has the legal standing.” The rule has been enforced since the Fukushima Daiichi nuclear disaster in 2011. *Inter alia* <http://www.beyondnuclear.org/storage/kk-links/8%2018%2014%20CRAFT%20intervention.pdf> (August 18, 2014).

From my home, in which I have lived since 1988, to Jenkinsville, it is about 24 miles.

None of cases cited by Mr. Gissendanner were about nuclear investments. This is proof that there has been another attempt to mislead ORS/PSC authorities, as well as a misrepresentation of the SCE&G.

No such “Objections” were given to Wojcicki in 2008-196-E docket. The objections have been continuously repeated after Wojcicki found SCANA lawyers to be incompetent in technical and economic aspects, including the lessons learned since Fukushima. These are facts that could disqualify the basic knowledge needed for such large projects.

This time, the subject is financing and it has nothing to do with Nuclear Regulatory Commission (NRC) safety requirements.

The 50-mile rule automatically gives Wojcicki a required standing in the 2014-187-E review process to represent the interests of millions of SCANA’s victims. Their interests will not be adequately represented without this course of action and intervention, or without the opportunity to participate as full parties in this proceeding.

Respectfully submitted,

Joseph “Joe” Edward Wojcicki, is the energy consultant, advocate for three (3) million victims and case intervenor in its first stage (docket 2008-196-E) of the licensing process under PSC of SC.
